THE AREA: Yé and the Famara cliff

FINCA LA CORONA is located in the village of Yé, just atop the Famara cliff, and under a mile from the foothill of the Corona volcano. This area was declared a natural reserve, and therefore pristine and isolated from the mass tourism of other areas of the island, offering a true sense of peace and tranquillity, fully undisturbed.

Sitting on a fantastic plot of approximately 18,000 square metres THE FINCA LA CORONA consists of 6 self-contained holiday units (totalling 980 square metres), described on the following pages, with additional square metres in use by the guests as shared facilities including a heated pool, Jacuzzi, and a gym as well as a number of entertainment areas such as a BBQ and Bocce ball court.

Just a short walk away from the Finca lies a path down the Famara cliffs. The hike down this path takes approximately 45 minutes, and leads to some of the island's most pristine and untouched beaches, not accessible by any other means. Aside from the beaches located just below the Famara cliff, the north of the island also offers numerous other attractions such as the tourist centres developed by local artist César Manrique (Mirador del Río, Jameos del Agua, and Cueva de los Verdes), less than 10 minutes away from the villas.

All of the villas, guest houses come with Internet access, central heating, and beautifully fitted kitchens complete with dishwasher, fridge/freezer, hob, oven, and washing machine.

The self-contained units described herein are:

- Amanecer
- Vista Corona
- Vista Risco
